Kenya

History of the SHN Short Courses

2013 Highlights from Asia & Africa

**National University of Laos, 12-20 February 2013,
Vientiane, Lao PDR**

Elmina, Ghana 10-20 June 2013

A Practical Course

Please list below all of the stakeholders currently and/or potentially involved in Deworming services and education for your country programs:	Please rank the stakeholders in order of importance, where 1= most important for your program	Please identify what role the stakeholder may play, where F = Financial T = Technical P = Policy I = Implementation, and B = Beneficiary	Please indicate whether the stakeholder is currently engaged (E) or could be potentially engaged (PE).
<i>Example: Teachers</i> <i>School Principal</i>	2 1	I;B I;B	PE E
LSTM	1	F;T	E
Ministry of Education	1	T;P;I	E
Ministry of Agriculture	1	T;P;I	E
LW&SC	2	T	PE
IRD	1	F;T	E

UNICEF	Programme Name:	School Hygiene and Environmental Health
WFP	Goal:	To establish and improve healthy and hygienic environments

WHO	Needs	Activities	Timeframe	Responsible	
Community	Adequate, clean and separate latrines for girls and boys available	Procure and distribute OSS to all schools	July 2012- December 2012	1. MoE 2. MINECOFIN 3. MINALOC 4. Communities 5. UNICEF	OSS to clean their latrines
	Provision of running and potable drinking water	Sensitise schools and communities to use water tanks for raining water harvesting and on use of sur'eau (chlorination) for drinking water	September 2012 - July 2013	1. MoE 2. MININFRA 3. Districts 4. Communities	Number of schools sensitised

Our Partners

- **Multilateral:** World Bank, UNESCO, UNICEF, FAO, WFP
- **Bilateral/NGO:** GTZ/GIZ, Save the Children, HOPE (Kenya), HKI, Water Aid, Aga Khan, Madrassa Resource Centre (Kenya), Communauté Baptiste au Centre de L'Afrique, ACET DRC Programme, Creative Associates (Liberia), JICA, National Center for Global Health and Medicine (NCGM), Catholic Relief Services, Mae Tao Clinic (Thailand), Plan International.
- **Academic:** London School of Hygiene and Tropical Medicine, KEMRI, Imperial College London, Ngochi, Harvard Graduate School of Education, Keio University, NMIMR – University of Ghana, University of Peking, National University of Laos, Mahidol University.
- **Gov Sectors:** Education, Health, Social Welfare, Agriculture, Nutrition, Local Government.

Purpose

Training course objectives:

1. Strengthen global, regional, national and local **partnerships** in the SHN community.
2. Provide **evidence-based** teaching that will improve SHN **knowledge**.
3. Strengthen **capacity**, at the national and regional level, of both health and education sectors to support all SHN components.

Outcomes of the Course

Short Term Action Plan

Needs	Activities	Time-Frame	Responsible
Review of school health policy to include nutrition	Stakeholders meeting to review and finalize the policy (2-3 meetings)	July – August 2013	Ministry of Education (focal person for health and Nutrition)
Presentation policy to the National Council on Education of reviewed			Ministry of Education (focal person for health and Nutrition)

Lao PDR

Minutes of meetings, meeting report and inter-government agency agreement endorsed by ministers.
		2013-2015	Mainly the Ministry of Education & Sport with inputs of other key partners.	Comprehensive national program on SHN formed.

Mali

Plan d'Action à Court Terme

01

Déparasitage

Nom du Programme : Santé Nutrition Scolaire

Objectif: Préserver une bonne Santé des enfants

Besoins	Activités	Calendrier	Responsable	Vérification de l'Atteinte
Modules de formation des formateurs sur l'hygiène en milieu scolaire.	Elaboration des modules de formation des formateurs sur l'hygiène en milieu scolaire	1 ^{er} trimestre de l'année scolaire 2013-2014	MEN et MS	Existence et disponibilité des modules
Les enseignants capables de déparasiter	Formation des enseignants des écoles	Pendant les petites et les grandes vacances	MEN et MS	Existence des rapports de formation
Disponibilité des produits	Passer la commande des intrants	Pendant les grandes vacances	MEN, MS, et les Finances	Les intrants disponibles.
Les outils de gestion et suivi d'évaluation	Elaboration des outils de suivi-évaluation	Avant la formation des enseignants	MS et de l'éducation	Existence des outils de gestion et d'évaluation

Planned for development over the coming 1-3 years.

Discussing for Declaration

Declaration

- We, the participants of the *3rd Asia Training Course on School Health and Nutrition Programmes*,
- a diverse group of governments, United Nations agencies, bilaterals, academic institutions, and civil society organisations have come together
- *to form the Asian School Health & Nutrition (SHN) Network and make this declaration*
- based on the following key issues:

Key Issues

- 'Health for All' and 'Education for All' are fundamental human rights of school children and their family members.
- The known impact of SHN programmes on the well-being and educational achievement of children and their future productivity as adults;

Key Issues

- The growing risk to children of both communicable and non-communicable diseases, including the double burden of under- and over-nutrition;
- The importance of inclusive school health programming to ensure that all children have equal access to the education system;
- The importance of the eco-health approach to make SHN programmes more sustainable by educating children on the health effects of ecosystem around them.

Now we call upon governments

- 1 To actively address the gap between SHN policy and implementation; involving all relevant stakeholders.
- 2 To institutionalize SHN actions by establishing, or strengthening, multisectoral SHN committees at different levels of governance.
- 3 To strengthen mid-level general management and improve the synchronization of SHN activities at school, country and regional level.

Now we call upon governments

- 4 To promote inclusive SHN programmes such as oral health, food safety, non-communicable diseases, and emerging diseases.
- 5 To ensure inclusive programming by promoting collaboration between SHN and inclusive education units.
- 6 In particular, to the Ministry of Education, in cooperation with health and other ministries, to institutionalize school health unit and SHN education curriculum to improve health and nutrition literacy of school children.

We also call upon to:

- 7 All countries to work collectively to learn best practices in this region and to address current and future threats to the health and nutrition of school children.
- 8 Local academic institutions to strengthen evidence-base for better SHN policies and practices.
- 9 All development partners to provide sustainable funding to strengthen the capacity of each country for SHN programmes.

Finally, we call upon:

10 The *Asian School Health and Nutrition Network* to monitor the progress of this Bangkok Declaration and Agenda for Action and to evaluate the progress in the region.

Roadmap

- **Requesting more comments from:**
 - You
 - Network members
 - Our partners
- **December 2014 in BKK, we will declare it!**

*School Health and Nutrition (SHN)
for All in Asia !*
