The role of technology transfer in parasite control in developing countries.	KD Murrell	1
Current status of food-borne parasitic zoonoses in South Africa and Namibia ...	JJ Joubert, AC Evans	7
Current status of gnathostomiasis dorolei in Miyazaki Prefecture, Japan.	Y Nawa, H Maruyama, K Ogata	11
<i>Trichinella</i> in arctic, subarctic and temperate regions: Greenland, the Scandinavian countries and the Baltic States.	CMO Kapel	14
Tapeworm infection resulting from pork eaten at a wedding banquet.	ZF Zhao, H Guo, XX Huang	20
Cysticercoses in the Grand Dani Valley, Jayawijaya District, Irian Jaya Province, Indonesia.....	Sukwan Handali, Hao Liying, Carla Lusikoy, Jermias Senis, Deri Sihombing	22
Epidemiology of echinococcosis in Nepal	DD Joshi, AB Joshi, H Joshi	26
Epidemiology of paragonimiasis in Korea	SY Cho, Y Kong, SY Kang	32
Pulmonary paragonimiasis and tuberculosis in Sorsogon, Philippines	V Belizario, M Guan, L Borja, A Ortega, W Leonardia	37
Paragonimiasis in Sin Ho Distric, Lai Chau Province, Viet Nam	CV Vien, NC Phue, LD Ha, LM Tuan, NTB Van, TC Pao, LT Hoa, CT Phoung	46
Epidemiology and control of clonorchiasis in Korea	HJ Rim	47
Epidemiological survery on clonorchiasis sinensis in Yangxin County of Hubei Province of PR China	S Chen, S Chen, F Wu, S Chen, S Ke, S Chen, Z Pan	51
Epidemiological aspects of aquaculture in relation to fish borne trematodiasis in Malaysia.....	KC Shekhar	54
Fish-and Shellfish-borne trematode infections in Canada.....	BR Dixon, RB Flohr	58
Application of hazard analysis critical control point (HACCP) as a possible control measure for <i>Opisthorchis viverrini</i> infection in cultured carp (<i>Puntius gonionotus</i>)	C Khamboonruang, R Keawvichit, K Wongworapat, S Suwanrangs, M Hongpromyart, K Sukhawat, K Tonguthai, CAM Lima dos Santos	65
Common culture practices for cyprinids in Asia	T singh	73
Microbiological status of live eel and processed fish products for export to Japan	MA Rohaya, BH Chuink, K Aniran	77
Cancer genes and cholangiocarcinoma	S Petmitr	80
Place of surgery in opisthorchiasis associated cholangiocarcinoma	V Bhudhisawasdi	85
A brief update on the diagnosis of trichinellosis	RC Ko	91
Production of specific antigens from <i>Trichinella spiralis</i> using a continuous elution method and isoelectric focusing	RKM Leung, RC Ko	99

Serological investigation on human trichinellosis spiralis in Hubei Province of PR China	S Chen, L Li, C Wu, JJ Ye	107
Molecular genetic variation in <i>Echinococcus</i> and <i>Taenia</i> : An update	DP McManus	110
Serodiagnosis of alveolar echinococcosis: Detection of antibody against EM18 in patients and rodents	I Akira	117
A study on the culture medium antigens of <i>Cysticercus cellulosae</i> for detecting antibodies of cysticercosis by means of ABC-ELISA	H Guo, ZF Zhao, DZ Shi	125
Development and characterization of monoclonal antibodies against excretory -secretory antigens of <i>Fasciola gigantica</i>	V Viyanant, ES Upatham, P Sobhon, T Kusamran, T Chompoochan, S Thammarsart, P Prasittiratana, P Ardeungnoen, S Anatawara	128
Recent advances in diagnosis of paragonimiasis	W Maleewong	134
Detection of circulating antigens of <i>Parastrongylus cantonensis</i> in human sera by sandwich ELISA with specific monoclonal antibody	P Eamsobhana, JW Mak, HS Yong	139
Detection of <i>Angiostrongylus malaysiensis</i> circulating antigen using monoclonal antibody-based enzyme-linked immunosorbent assay (MAB-ELISA)	S Ambu, A Noor Rain, JW Mak, D Maslah, S Haidah	143
Vaccine development against <i>Theileria</i> parasite	M Onuma, S Kakuda, Y Sako, C Sugimoto	148
Observations on the effects of cysticercosis immune sera on cysticercosis by scanning electron microscopy	ZF Zhao, H Guo, XX Huang	155
Ensuring hygienic quality of food of animal origin by irradiation processing	P Loaharanu	158
Irradiation as a cold pasteurization process of fish and seafood	P Loaharanu	162
Incidence of ascaridoid larvae in kuwaiti food	O Sey, AJ Petter	168
A survey of bovine, bubaline and swine sarcocystosis in the Philippines	FG Claveria, B Petersen, MR Macabagdal, RJ Farolan, MA Farrol, F Gonzalvo, R Cadiz, R Ajero, F Roque, G Lozano	173
A survey of helminth infection in rats (<i>Rattus</i> spp) from Chiang Mai Moat	C Namue, C Wongsawad	179
Helminths in house lizards (Reptilia : Gekkonidae)	P Saehoong, C Wongsawad	184
<i>Angiostrongylus</i> infections in rats and snails in Northeast Thailand	V Pipitgool, P Sithithaworn, P Pongmutasaya, E Hinz	190
An outbreak of ascariasis with marked eosinophilia in the Southern part of Kyushu Distric, Japan, caused by infection with swine <i>Ascaris</i>	H Maruyama, Y Nawa, S Noda, T Mimori	194
Newly recognized causative larval nematode (Suborder: Spirurina) of creeping eruption	K Ando, Y Chinzei	197
Planorbid snails as potential molluscan intermediate host of a human intestinal fluke, <i>Neodiplostomum seoulensis</i> (Trematoda : Diplostomatidae) in Korea	PR Chung, Y Jung, DS Kim	201
Natural infection of trematodes in <i>Lymnaea (Radix) auricularia rubiginosa</i> in water reservoirs in Amphoe Muang, Khon Kaen Province	A Charoenchai, S Tesana, M Pholpark	209
Light and scanning electron microscopy of <i>Stellantchasmus</i> sp (Trematoda : Heterophyidae)	C Wongsawad, A Rojanapaibul, P Vanittanakom	213
Annual economic loss caused by <i>Taenia saginata asiatica</i> taeniasis in three endemic areas of East Asia	PC Fan	217
Metacercariae in fishes of sun moon lake which is an endemic area for clonorchis sinensis inTaiwan	HK Ooi, CI Chen, SC Lin, KC Tung, JS Wang, M Kamiya	222
Metacercariae isolated from cyprinoid fishes in Khon Kaen District by digestion technic	T Srisawangwong, P Sithithaworn, S Tesana	224
