SEAMEO TROPMED Network

The Southeast Asian Ministers of Education Organization (SEAMEO) is a chartered international organization for the promotion of cooperation programmes in education, science and culture. Member Countries are Brunei Darussalam, Cambodia, Indonesia, Lao People’s Democratic Republic, Malaysia, Myanmar, the Philippines, Singapore, Thailand and Viet Nam. Associate Member countries are Australia, Canada, France, Germany, New Zealand, and the Netherlands.

SEAMEO TROPMED Network is a regional cooperative network established in 1967 for education, training and research in tropical medicine and public health in Southeast Asia under the auspices SEAMEO. The mission of SEAMEO TROPMED Network is to promote health and prevent or control diseases, thus improving living conditions of people in Southeast Asia through relevant programmes and quality services. Specific mission is to develop the capacity of individuals and institutions in delivering quality healthcare. The Network operates through the Regional Centre for Community Nutrition in Indonesia; Regional Centre for Microbiology, Parasitology and Entomology in Malaysia; Regional Centre for Public Health in the Philippines and Regional Centre for Tropical Medicine in Thailand, thus ,maximize the resources and avoid duplication of programmes. SEAMEO TROPMED is unique insofar as no other similar organization exists in the developing world.

The SEAMEO TROPMED Coordinating Office is hosted by the Faculty of Tropical Medicine, Mahidol University, 420/6 Rajvithi Road, Bangkok 10400, Thailand. Tel/ Fax: +662-2477721 or 6444331

European Commission Regional Malaria Control Programme
In Cambodia, Laos and Vietnam

Following requests for support from the Governments of Cambodia, Laos and Vietnam, the European Commission (EC-RMCP) has developed a regional programme on malaria control to support all three national programmes. This programme is expected to meet the actual and future requirements in accordance with the Common as well as special characers of the three countries in malaria control. The programme assists national health organizations in decreasing morbidity due to malaria by reinforcing capacities of national health systems through the acquisition of knowledge and development of managerial skills of malaria control workers.

The initial period of implementation of EC-RMCP is four years from September 1997 to August 2001 with an estimated budget of 29 million ECU (approximately 32 million USD).

The programme has linkages with the regional components of the WHO Roll Back Malaria initiative, Southeast Asian Ministers of Education Organization Regional Network in Tropical Medicine and Public Health (SEAMEO TROPMED Network) and Asian Collaborative Training Network for Malaria (ACTMalaria). Emphases is placed on consolidating efforts through inter-country collaboration in training, research, information exchange and networking.
