

SUBJECT INDEX

<i>Acinetobacter baumannii</i> , possible sources for spreading	676	Ciguatera fish poisoning	307
<i>Aedes aegypti</i> , pyrethroid susceptibility	229	Community participation, dengue risk factors, Vietnam	79
<i>Aedes aegypti</i> (Linn.), transovarial dengue virus	813	Coronary syndrome, acute	1040
<i>Aedes aegypti</i> control, a novel formulation of pyriproxyfen	822	<i>Cryptococcus neoformans</i> C _N SRB1 cDNA, cloning and expression	484
<i>Aedes albopictus</i> , life tables study of immature	39	<i>Cryptococcus neoformans</i> septicemia, immunocompetent neonate	697
AIDS vaccine development, meeting report	766	<i>Cryptosporidium parvum</i> , detection in HIV-infected patients	511
Albendazole, treatment of eosinophilia	517	<i>Cryptosporidium</i> , diarrheic patients, Philippines	991
Ambulance response time, Malaysia	1150	<i>Culex</i> spp, efficacy of monomolecular surface film	222
Angiostrongyliasis, intraocular	1005	Cytomegalovirus, vitreous aspirate	1057
Angiotensin-1 converting enzyme	917	Degenerative diseases, association with the loss teeth	184
<i>Anopheles arabiensis</i> , efficacy of monomolecular surface film	222	Dengue hemorrhagic fever, blood zinc levels and clinical severity	610
<i>Anopheles minimus</i> , identification, Vietnam	827	Dengue hemorrhagic fever, control interventions	617
Anti-tuberculosis prescribed medication regimen	1072	Dengue IgM ELISA, factors affecting false positive results	55
APACHE II score, prediction of the hospital outcome	138	Dengue IgM-Particle Agglutination, factors affecting false positive results	55
Arteether, C ¹⁴ labelled, distribution in experimental mice	195	Dengue infection, serum ferritin	832
Artequick®, efficacy in malaria treatment	1	Dengue infection, temporal patterns and forecast	90
Artesunate, quantification in human plasma	963	Dengue infections, child and adult clinical features	252
Artesunate-mefloquine, efficacy in malaria treatment	1	Dengue infections, HIV patients	260
Avian influenza viruses, H5N1, genetic characterization	837	Dengue risk factors, household survey in Vietnam	79
Azithromycin, determination in human plasma by HPLC	978	Dengue virus genome, RT-PCR detection	817
<i>Bacillus thuringiensis israelensis</i> , formulation, impact on dengue vectors	601	Dengue virus type 2, analysis of E/NS1 gene junction	62
<i>Bacillus thuringiensis</i> parasporal inclusions, cytotoxic activity	235	Dengue virus infection, rupture of spleen	383
<i>Bartonella henselae</i> , human isolate, Thailand	123	Dengue virus, transovarian in <i>Aedes aegypti</i> (Linn.)	813
Benzyl benzoate, activity against <i>Dermatophagoides pteronyssinus</i>	507	<i>Dermatophagoides pteronyssinus</i> , activity of benzyl benzoate	507
Blastomycosis, pulmonary, Hawai'i	701	Diabetic and non-diabetic patients, thyroid hormone levels	913
Blood donors, assessment of a self-deferral form	906	Diabetic patients, type 2, quality of life and compliance	328
Blood pre-donation deferrals	571	Diarrhea, children admitted to a hospital, Bangkok	434
<i>Burkholderia pseudomallei</i> BipD protein	109	Dihydroartemisinin, quantification in human plasma	963
<i>Burkholderia pseudomallei</i> , immune responses	443	Diphtheria outbreak, Thailand	690
Capillariasis, chronic watery diarrhea	1000	<i>Dirofilaria immitis</i> , epidemiology in dogs, Thailand	33
<i>Carcinoscorpius rotundicauda</i> , tetrodotoxin poisoning	303	DNA mutation, mitochondrial, 2-deoxy-D-glucose uptake	745
Caries, rampant	893	E/NS1 gene junction, sequence analysis	62
Cataracts, senile and diabetic, changes in G6PD and GSH	731	Ectoparasites, forest reserve, Malaysia	496
Cervical cancer, invasive, prevalence in patients with ASCUS	737	Emergency medical dispatcher program, Malaysia	1150
Children under age five, predictors of severe illness	719	Enterobiasis, infection in adults	213
<i>Chromobacterium violaceum</i> , human infection in Southeast Asia	452	Enteroviral conjunctivitis outbreaks, management	398
		Eosinophilia, treatment with albendazole	517

SUBJECT INDEX

Erythropoietin, defective production in malaria associated anemia	581	HIV patients treated for TB, physical and mental health	1061
<i>Escherichia coli</i> , beta-lactamase and class 1 integron integrase gene <i>intl1</i>	425	HIV/AIDS, KAP among Afghan freshmen	404
<i>Escherichia coli</i> , class 1 integrons and multidrug resistance	279	HIV-1 infected patients, compliance with hepatitis virus screening	863
Falciparum malaria, efficacy of Artequick®	1	HIV-1 subtype CRF01_AE, MIP-1 β and RANTES levels	856
Falciparum malaria, efficacy of artesunate-mefloquine	1	HIV-infected patients, detection of <i>Cryptosporidium parvum</i>	511
Falciparum malaria, lower limbs gangrene	589	HIV-seropositive mothers, infants born to	273
Filariasis, control and surveillance, China	27	Hospital pharmacy services, efficiency assessing	753
Flaccid paralysis surveillance, acute	1033	μ TERT mRNA, detection in cancer specimens	324
Folate status, schoolchildren and women	353	Human excreta, awful smell risk perceptions	341
Food behavior, schoolchildren and women	353	Hypertension, association with shift work	176
Forecast of dengue infection, Thailand	90	Influenza or influenza-like-illness	1040
Gaseous organic compounds, determination, Japan	1155	Influenza virus infection, occurrence in swine	1045
Geographic information system, monitoring of iodine deficiency	362	Integrons, class 1, <i>Escherichia coli</i> isolates	279
<i>Giardia</i> , prevalence among diarrheic patients, Philippines	991	Intussusception, epidemiology, Malaysia	848
Glucose-6-phosphate dehydrogenase deficiency	154	Iodine deficiency, monitoring by geographic information system	362
Glucose-6-phosphate dehydrogenase deficiency neonatal jaundice associated	557	Japanese encephalitis virus, differences of <i>E</i> gene	387
Glucose-6-phosphate dehydrogenase, changes of activities in cataract development	731	KAP related to HIV/AIDS, gender differences	404
Glutathione, reduced activities in cataract development	731	<i>Leishmania infantum</i> , causing visceral leishmaniasis, Thailand	988
Gnathostomiasis, hypereosinophilia and abdominopulmonary	804	Leptospirosis, chemoprophylaxis with oral penicillin	882
Gnathostomiasis, spinal	800	<i>Linguatula serrata</i> , prevalence in domestic ruminants	808
H5N1 avian influenza viruses, genetic characterization	837	LOD score, prediction of the hospital outcome	138
H5N1 influenza A virus, whole genome sequence	373	Lymphadenitis, caused by mycobacterial species	130
Heavy metals, edible vegetables	335	Malaria, splenic complications	791
<i>Helicobacter pylori</i> , identification by gastric tissue staining	659	Melioidosis, cutaneous pulmonary involvement	656
<i>Helicobacter pylori</i> , antimicrobial susceptibility	1102	Melioidosis, rheumatological manifestations	649
Helminth control program, monitoring	1008	Men who have sex with men, unprotected sex	99
Helminth infections, detection in dogs and soil	205	Metabolites of toluene, xylene and styrene, determination in urine	1164
Hepatitis B virus, genotypes among children	394	MexXY and OpmG in aminoglycoside	115
Hepatitis C virus, genotypes in liver disease patients	1054	Microparticles, cell-derived, quantitation in plasma	146
High grade squamous intraepithelial lesions, prevalence in patients with ASCUS	737	MIP-1 β , serum levels in HIV-1 subtype CRF01_AE patients	856
High performance liquid chromatography, azithromycin determination	978	Mosquito coils containing pyrethroids and synergist, bioefficacy	48
High performance liquid chromatography, urinary metabolites determination	1164	Multidrug resistance, <i>Escherichia coli</i>	279
Hiriduniasis, unusual	319	Mycobacterial species lymphadenitis	130
HIV encephalopathy, clinical features and risk factors in children	266	Neonatal jaundice, efficacy of clofibrate	557
HIV patients, dengue infections	260	Neonatal screening, monitoring of iodine deficiency	362
		Neuritis, optic	1005

Non- <i>Candida albicans</i> , significance and drug susceptibility	492	<i>Salmonella enterica</i> serovar 4,[5],12:i:- <i>Salmonella enterica</i> , class 1 integrons characterization	288 419
Opisthorchiasis, perceptions and practices, Lao PDR	19	Sexually transmitted infections, vulnerable population, Pakistan	642
Opportunistic infections, lessons learned, Southeast Asia	625	Shift work, association with hypertension	176
Overweight and chronic diseases, prevalence in Malaysia	162	Shigella, a food borne outbreak	297
PanBio Dengue ELISA assay	55	<i>Siphunculina funicola</i> , population control using pyrethroid aerosols	246
Paragonimiasis, prevalences measured 20 years apart	593	Spondylitis patients, tuberculous, hematological changes	686
<i>Paragonimus pseudoheterotremus</i> , phylogenetic relationship	217	<i>Staphylococcus aureus</i> , methicillin-resistant, antimicrobial activities	885
PCR-RFLP, coagulase gene, typing of <i>Staphylococcus aureus</i>	467	<i>Staphylococcus aureus</i> , molecular typing	467
Pediatric hematology-oncology outpatients, audit	728	STI-intervention, changes in STI services	867
Penicillin-resistant viridans group streptococcal endocarditis	1088	Streptococcal endocarditis, penicillin-resistant viridans group	1088
Pentax Dengue IgM-Particle Agglutination assay	55	<i>Streptococcus pneumoniae</i> , antimicrobial susceptibility	461
Physical activity, risk of dyslipidemia	932	Temporal patterns, dengue infection, Thailand	90
<i>Plasmodium berghei</i> NK65 mortality, involvement of IFN- γ	949	Tetrodotoxin poisoning, ingestion of <i>Carcinoscorpius rotundicauda</i> eggs	303
<i>Plasmodium falciparum</i> isolates, polymorphisms in <i>dhfr</i> , <i>dhps</i> , <i>pfmdr1</i> and <i>pfcr1</i> genes	959	Thalassemia patients, growth velocity	900
<i>Plasmodium falciparum</i> malaria-associated anemia	581	Tick-borne pathogens, Thailand	1015
<i>Plasmodium falciparum</i> populations, phylogenetic relationship	200	Ticks (Ixodidae), forest reserve, Malaysia	496
Pneumonia, epidemiology, rural Thailand	706	<i>Toxoplasma gondii</i> , seroprevalence in Vietnamese villagers	14
Pneumonia, nosocomial, incidence and risk factors	168	Toxoplasmosis, seroprevalence among migrant workers, Malaysia	9
Pneumonia, sensitivity of surveillance	549	<i>Trichinella</i> spp, study in pigs	795
Poison control center, Vietnam	310	Tuberculosis control, village health volunteer participation	542
Porcine respiratory disease complex	1045	Tuberculosis drugs, method to detect non-adherence	1083
Pregnancy Physical Activity Questionnaire, Vietnamese version	562	Tuberculosis of the spleen	136
Protein-energy malnutrition, prevalence and predictors	922	Tuberculosis treatment, intensive triad-model program	526
<i>Pseudomonas aeruginosa</i> , aminoglycoside efflux	115	Tuberculosis treatment, predictors of default	1076
Pyrethroid aerosols, control of <i>Siphunculina funicola</i>	246	Tuberculosis, extra-pulmonary, Thailand	521
Pyrethroid, susceptibility of <i>Aedes aegypti</i>	229	Typhoid fever in children, health care preferences	1110
Pyriproxyfen, a novel formulation, <i>Aedes aegypti</i> control	822	Vaccine, diphtheria-tetanus-pertussis-hepatitis B- <i>Haemophilus influenzae</i> type B	474
Quality of life, type 2 diabetic patients	328	<i>Vibrio cholerae</i> , association of <i>ompU</i> gene and bile resistance	876
RANTES, serum levels in HIV-1 subtype CRF01_AE patients	856	<i>Vibrio cholerae</i> , emergence of multidrug resistance	1092
Reticulocyte response, in malaria-associated malaria	581	<i>Vibrio cholerae</i> , non O-1/non O-139, septicemia	1098
Retinal necrosis, acute, molecular diagnosis	1057	<i>Vibrio cholerae</i> , non-O1, non-O139 serogroups	1092
Road traffic injuries, economic burden	1139	<i>Vibrio cholerae</i> , survival on finger locations	667
<i>Saccharomyces cerevisiae</i> , cloning and expression of <i>C. neoformans</i>	484	Village health volunteer, tuberculosis control	542
<i>Salmonella enterica</i> serovar Typhimurium	288	Visceral leishmaniasis, caused by <i>L. infantum</i>	988
		Vulnerable youth, sexual and reproductive health needs	1126
