

## SUBJECT INDEX

acute hepatic failure	51	cytomegalovirus, genotype	636
acute post-streptococcal glomerulonephritis	281	clonorchiasis, prevalence and risk factors	950
adenosine deaminase activity	655	<i>Citrus paradisi</i> Macf, effects of peel oil	970
<i>Ae. aegypti</i> , controlling device	167	cryptococcal infection	1040
<i>Ae. aegypti</i> , ivermectin exposure	179	dengue, antigen and antibody detection	226
<i>Aedes</i> , larval population	157	dengue, severe clinical manifestation	602
<i>Aedes aegypti</i> , effects of grape fruit peel oil	970	dengue and chikungunya infections	780
<i>Aedes aegypti</i> (L.), effects of housing factors	979	dengue fever, KAP in Malaysia	37
<i>Aedes aegypti</i> (L.), larvicidal control	753	dengue hemorrhagic fever, complication	400
<i>Aedes albopictus</i> Skuse, effect of housing factors	979	dengue infected patient, septic shock	623
air pollution, indoor	900	dengue infection, biomarkers for early detection	31
albendazole, effect on growth rate of children	19	dengue NS1 antigen, detection	226
alcohol use	880	dengue outbreak, climate effects	613
alcohol use, influencing factors	718	dengue transmission, temporal patterns	206
alpha-thalassemia, Hct/Hb ratio	707	dengue virus, prevalence	594
<i>Anastomus oscitans</i>	799	dengue virus infection, serodiagnosis	218
anti-HIV-1 NpMAbs production	825	Densovirus, mosquito	586
antimalarial medicines, Thai-Cambodian border	363	depressive symptoms, international students	1098
antimalarial medicines, western Cambodia	349	DHF/DSS, clinical features	772
appendicitis, fungal	681	diabetes, obesity and oral health synergism	318
ascariasis, case series	150	diabetes insipidus	697
avian influenza virus, subtype H5N1	799	dihydroartemisinin, activity against <i>S. mansoni</i>	379
backpacker, sexual behavior	690	ecthyma gangrenosum	649
beta-thalassemia, mutation screening of beta-globin gene	114	elderly, falls related factors	906
beta thalassemia trait, genotyping	1055	enteric fever, treatment and MIC levels	109
<i>Blastocystis hominis</i>	374	enteric pathogens, raw foods and children	206
<i>B. pseudomallei</i> , biofilm formation	72	ESBL producers, antimicrobial resistance patterns	96
brain abscess, listerial	468	falciparum malaria, risk factor for shock	541
cardiovascular events, risk among HIV patients	818	falls, related factors	906
caries, risk factors	523	fatty liver disease, non-alcoholic	309
<i>Cryptosporidium parvum</i> identification in water samples	13	fever of unknown origin	503
<i>C. hominis</i> , identification in water samples	13	flies, isolated gram-negative bacteria	988
chikungunya, economic impact	54	Japanese encephalitis, surveillance	791
clarithromycin, resistance among <i>H. pylori</i>	89	gram-negative bacteria, antimicrobial resistance patterns	96
community acquired pneumonia	289	health expenditure, catastrophic	124
<i>Culex quinquefasciatus</i> , efficacy of essential oils	761		
cooking fuel	900		

SUBJECT INDEX

<i>Helicobacter pylori</i> , clarithromycin resistance	89	<i>Paederus fuscipes</i> , dermatitis	197
HIV, guidelines for mother-to-child transmission prevention	997	<i>Pangasius sutchi</i> , spine sting injury	703
HIV, risk factors among MSM	810	panhypopituitarism	697
HIV/AIDS patient, tuberculosis co-infected	641	pantastomiasis, pediatric cases	25
HIV/AIDS patients, ocular diseases	62	parenting competence	916
HIV and syphilis seroconversion	842	peak expiratory flow rate	900
HIV diagnosis disclosure	1010	periodontal disease	523
HIV infected patients, cardiovascular events	818	pesticides, organophosphate, residues in vegetable	1088
HIV patients, outcomes after ART	232	<i>Phaeocremonium parasiticum</i>	484
HIV VCT counselor	417	<i>Plasmodium falciparum</i> , C-terminal polymorphism of MSP-1	1
<i>H. pylori</i> infection, neutrophil-lymphocyte count ratios	82	<i>Plasmodium vivax</i> malaria	733
infection drug users	842	pneumonia, hospital acquired	490
influenza, prevention program	630	pneumonia, ventilator-associated	490
influenza, the 2009 H1N1	388	pneumonia, community acquired	289
iodine status, schoolchildren	1072	probiotic treatment, cost-benefit analysis	1065
lead, blood levels, lead exposed children	1079	<i>Pseudomonas aeruginosa</i> , multidrug-resistant	273
Leishmaniasis, visceral	143	PSOC scale	916
leptospirosis, after a typhoon	1021	pyriproxyfen treated device	157
<i>Liosarcophaga dux</i> Thompson	182	<i>Pythium insidiosum</i> , antibody detection	672
<i>Listeria monocytogenes</i>	468	rabies, treatment seeking behavior	244
malaria, biomarkers for early detection	31	rubella syndrome, congenital	423
malaria, cerebral, associated factors	941	Russell's viper bite	694
meliodosis, presentation in children	862	<i>Salmonella enteritidis</i>	456
men having sex with men	810	<i>Salmonella</i> septicemia	460
merozoite surface protein-1	1	<i>Salmonella</i> spp, detection in cockles	866
metabolic syndrome, prevalence	512	<i>Scedosporium apiospermum</i>	484
mosquito, online service	574	<i>Schistosoma japonicum</i> , prostatic	568
mosquito species, residential areas	963	<i>Schistosoma mansoni</i> schistosomula	379
<i>Musca domestica</i> L., effects of essential oils	188	schizontemia, severe malaria indicator	740
mycobacterial infection, nontuberculous	649	sealant, fluoride-releasing	931
<i>Mycobacterium avium</i> , disseminated	40	sexually transmitted infections	436
Norovirus gastroenteritis, outbreak	409	<i>Shigella</i> spp, detection in cockles	866
nosocomial bloodstream infections	1036	smoking, relation with exercise	712
nutrition curriculum	417	soft drink, effect on calcium release	927
obesity, intervention	295	soil-transmitted helminthiasis, KAP	744
onychomycosis, prevalence among diabetics	479	<i>Staphylococcus aureus</i> , methicillin-resistant	104
oral health, promotion in children	332	<i>Staphylococcus aureus</i> , methicillin-resistant	660
oral health and oral hygiene habits	1108	<i>Streptococcus pneumoniae</i> , macrolide resistant	875
		superantigenic toxin gene	660
		<i>Taenia</i> infestation	959
		Tetanus-diphtheria toxoid booster vaccine	1047

tobacco, use and attitude	880	<i>Vibrio cholerae</i> , detection by tetraplex PCR	249
<i>Toxocara</i> , soil contamination	551	<i>Vibrio cholerae</i> O139, rapid screening test	448
<i>Trichinella</i> , non-encapsulated	561	Vitamin C, effect on hemoglobin	733
trichuriasis, growth reduction in children	19	<i>V. minicus</i> , detection in cockle	249
tuberculosis, childhood	854	<i>V. parahaemolyticus</i> , detection in cockle	249
tuberculous pleural effusion	655	<i>V. vulnificus</i> , detection in cockle	249
uric acid, serum level	512	Zinc supplementation	733
