

SUBJECT INDEX

<i>Aedes aegypti</i> , ecological island	850	DTP-Hep B-Hib vaccine, safety	753
<i>Aedes</i> , temporal population changes	574	dysentery incidence, prediction using meteological variables	285
<i>Aedesc aegypti</i> , larvicidal activity of mushroom	586	enterovirus, patients with hand, foot and mouth disease	1013
α^+ -thal deletion mutation	110	enterovirus, sewage and drinking water detection	640
anemia, prevalence in China	306	<i>Epidermophyton floccosum</i>	268
<i>Anopheles litoralis</i> , bionomics and ecology	406	<i>Escherichia coli</i> O26, isolation from raw meats	241
<i>Anopheles maculatus</i> , bioefficacy of impregnated net	986	<i>Escherichia coli</i> , enteroaggregative	901
<i>Armigeres</i> , temporal population changes	574	<i>Escherichia coli</i> , extended-spectrum β -lactamase producing	51
bacterial identification, transfer-messenger RNA	720	<i>Escherichia coli</i> , urogathogenic	1021
BK virus nephropathy	657	falls, risk factors among children	924
<i>Blastocystis</i> , genetic subtypes	184	fluoride mouthrinse, effect of tricalcium phosphate on microhardness	539
bocavirus 1 and 2, molecular detection	1005	fluoride mouthrinse, efficacy of tricalcium phosphate	168
breakfast, consumption behaviors	939	<i>Giardia intestinalis</i> , assemblage and diarrhea correlation	835
<i>Burkholderia pseudomallei</i> , detection	30	H7N9-related ARDS, pregnant women	444
<i>Burkholderia pseudomallei</i> , soil properties	38	Haemophilus influenzae type B vaccine	743
burnout, level among assistant physicians	330	<i>Haemophilus influenzae</i> , presence of TEM-1 and ROB-1	254
cadmium, effects of exposure on human health	133	hand, foot and mouth disease, risk factors	449
carbamate poisoning, occupational	798	hepatitis A, detection in oysters	624
cardiovascular disease, risk factors	775	histoplasmosis myositis	738
cardiovascular risk factors, healthcare workers	504	HIV and HCV, prevention at a narcolic prison	880
<i>Cassia mimosoides</i> , larvicidal potential	596	HIV antibody testing decision among MSM	231
CD4+ T cell, mean values	662	HIV/AIDS, media's role in public awareness	669
chromoblastomycosis	105	influenza B virus, genetic characterization	611
<i>Clostridium difficile</i> , novel screening protocol	1037	influenza vaccination	215
community health service, Inner Mongolia	1077	injury and illness, work related	1124
cough and cold medications, KAP of parents	512	injury severity, survey in China	1134
<i>Culex quinquefasciatus</i> , bioefficacy of impregnated net	986	<i>Klebsiella pneumoniae</i> , extended-spectrum β -lactamase producing	51
dengue, acute infection, rapid test kit	602	<i>Klebsiella pneumoniae</i> , New Delhi metallo- bata-lactamase-1-producing	1031
densovirus, genetic variations in field mosquitoes	207		
dental caries, related oral health factors	786		
dental fluorosis, related factors in Pakistan	360		
diabetic patients, mortality by education level	125		
<i>Dientamoeba fragilis</i> , prevalence among Orang Asli population	844		
drowning, nonfatal, risk factors	1112		
DTaP and DTwP vaccination, adverse events	764		

leptin, plasma level in obese children	116	RBC indices related disorders	911
<i>Leptospria</i> , characterization of <i>flaB</i>	262	retinopathy, type 2 diabetics	322
malacological investigation, dam project	866	rotavirus diarrhea, rural children	434
malaria infection, characterization at border areas	551	rotavirus, detection in oysters	624
malaria, reported cases in Babel Island	965	<i>Salmonella enterica</i> , dissemination of sequence types	707
maternal body mass index	1085	SEAMEO	963
Melaleuca honey, anti-staphylococcal activity	472	smoking and second hand smoke	1092
men who have sex with men	680	smoking cessation, evaluation of quit-calendar	155
motorcycle accident, risk behavior	805	social marketing communication, indicators	949
MRI features, differences between tuberculous and bacterial spondylitis	71	sparganosis, intraosseous proliferative spondylitis	555
mycobacteria, detection in sputum	63	<i>Staphylococcus aureus</i> , detection of enterotoxins toxic shock syndrome toxin 1	97
<i>Myoviridae</i> propage typing	30	<i>Staphylococcus aureus</i> , elderly adult	465
<i>Naegleria fowleri</i> , diosgenin activity	827	<i>Staphylococcus aureus</i> , methicillin resistant	86
nematodes, entomopathogenic	564	<i>Steccherinum</i> sp, mosquito larvicidal activity	586
<i>Nocardia beijingensis</i> , renal transplant recipient	1049	street vended foods, microbial contamination	480
nocardiosis, liver transplant recipient	1055	streptococcus, group B, disease burden	728
Norovirus, outbreak at a daycare center	616	<i>Streptococcus pneumoniae</i> , elderly adult	465
Rotavirus, detection in oysters	624	strongyloidiasis, a complicated case	1
obese, children and adolescent	116	substance use, effect of religious beliefs	346
oral hygiene education, impaired students	354	tenofovir, HIV treatment	19
<i>Paederus</i> dermatitis	15	tobacco smoke exposure, asthmatic children	1103
Parvovirus B19, infection in a healthy child	226	<i>Toxocara canis</i> , hepatic visceral larva migrans	181
pathogen frequency, public hospital	276	toxocariasis, pediatric ocular	8
pesticide, evaluation of use and safety practice	143	<i>Toxoplasma gondii</i> antibodies, seroprevalence in wild rodents	388
<i>Phaeoacremonium parasiticum</i> , renal transplant patient	1049	<i>Toxoplasma gondii</i> GRA2 and GRA5	375
phaeohyphomycosis, subcutaneous	1049	<i>Toxoplasma</i> , HIV patients and inmates	977
phlebotomine sandflies, limestone caves	425	trematode infection, fresh water snails	396
Phlebotomine sandfiles, Sri Lanka	994	trichostrongyliasis	191
Phlebotomine sandfiles, diversity and seasonality	857	tuberculosis, multidrug resistant	697
plant poisoning, 10-year analysis	1063	tuberculosis, drug resistant among children	892
posttraumatic stress disorder	918	tuberculosis, primary sternal	80
pregnancy, unmarried women	526	tuberculosis, risk factors for latent infections	486
public health training, core competency evaluation	339	tuberculosis, treatment delay	689
pulmonary TB, Myanmar migrants	296	tuberculous and malignant pleural effusions	496
rat flea, host specificity and environmental factors	198	varicella zoster virus infection	27
		viral pneumonia, community acquired among children	650
		Zika virus, monkey bite infection	460
