

## SUBJECT INDEX

<i>Acinetobacter baumannii</i> , carbapenem resistance	401	CRAB Oxa-23 variants	401
adenovirus, detection in elderly patients	639	cryptococcosis, HIV / AIDS patients	957
<i>Aedes aegypti</i> , adulticide activity of essential oils	6	<i>Culex quinquefasciatus</i> , voracity and prey preference	240
<i>Aedes aegypti</i> , effect of botanical larvicides	227	cysticercosis, porcine	375
<i>Aedes aegypti</i> , genetic diversity	217	dehydration scale, accuracy	670
<i>Aedes aegypti</i> , key container habitat	23	dengue virus, molecular epidemiology	604
<i>Aedes aegypti</i> , larval habitat size	761	dengue virus, surveillance in residential and public areas	553
<i>Aedes albopictus</i> , larval habitat size	761	dengue, clinical score for diagnosis	391
<i>Aedes</i> spp, voracity and prey preference	240	<i>Dicrocoelium dendriticum</i> , livestock infection	755
alcohol drinking, university students	1084	diphtheria carriers, risk factors in children	660
<i>Anopheles balabacensis</i> , larval breeding sites	566	diphtheria, genetic variability in patients and carriers	456
anti-DENV / JEV IgG-mAb-ELISA, comparison to HIA	629	dyslipidemia, HIV patients	60
<i>Bacillus subtilis</i> spore, display of tetraspanin	933	<i>E. coli</i> , multi-drug resistance	1034
bacterial endocarditis, identification of agents	428	eHealth literacy	175
bat guano	331	endocarditis patients, treatment and outcomes	839
<i>Blastocystis</i> , genetic diversity of isolates	189	endocarditis, bacterial agents identification	428
<i>Blastocystis</i> , subtypes in chickens	921	enterovirus A71, detection in hand, foot and mouse disease cases	820
<i>Blattella germanica</i> , activity of Thai botanical extracts	46	<i>Escherichia coli</i> , enteroaggregative	409
blow fly, activity of Kaffir lime	32	<i>Escherichia coli</i> , O103, prevalence in meat	646
bocavirus 1, prevalence in pediatric pneumonia patients	805	exhaled carbon monoxide, smoking status determination	165
body mass index, affecting factors	696	fluoride content, infant formula	160
breast self-examination	1084	fluoride, estimation of urinary excretion	909
breasts-feeding, trends and determinants	870	food preparation safety	314
<i>Candidatus</i> Midichloria sp, nymphal tick	251	foot skin infection, antifungal efficacy	297
caries prevention	527	forensically flies, species survey	580
chicken meat, microbiological assessment	1043	Giemsa staining, effect on thin blood film	361
<i>Chrysomya megacephala</i> , wing morphometric analysis	590	glass-ionomer sealant	340
<i>Chrysomya ruffifacies</i> , wing morphometric analysis	590	glycemic control, self-management education	304
condom use, heterosexual male students	489	<i>Gnathostoma spinigerum</i> , emergence of adult worm	1
cigarette smoking, pulmonary function testing	469	gnathostomiasis, cases in Myanmar	543
<i>Citrus hystrix</i> , activity against flies	32		

<i>Haemophilus influenzae</i> , infected atrial myxoma	465	overweight and obesity, prevalence in Malaysia	859
Hb J-BUDA	854		
hepatitis A, incidence of infection	780	pertussis, patients with prolonged acute cough	447
hepatitis A, peripheral blood eosinophilia	1029	<i>Piper retrofractum</i> , anthelmintic activity	741
hepatitis B, response to double-dose vaccination	799	<i>Plasmodium falciparum</i> , mono-infection, therapeutic efficacy	733
hepatitis C, characteristics at initial presentation	789	pneumonia, community acquired, adult with diarrhea	133
herpes simplex genitalis	1002	<i>Protophormia terraenovae</i> , penile myiasis	600
HIV RNA level, pretreatment prediction	965	<i>Pythium insidiosum</i> , preservation method	421
HIV-1, recent infection, neutralization activity pattern	975		
HIV/AIDS, knowledge and attitudes	992	resin modified GIC, effect on microhardness	155
house fly, activity of Kaffir lime	32	respiratory illness, impact of vaccine campaign	266
hydraulic conductance, milk and dentrifice comparison	345	respiratory virus, control strategy	1009
hydraulic conductance, effect of milk	1103	<i>Rhipicephalus sanguineus</i>	251
hypertension, associated factors	1072	road traffic mortality, associated factors	717
		rotavirus VP6 gene, characterization of group A	68
illicit substance use	1091	rotavirus, detection in elderly patients	639
influenza B virus, seasonal circulating strains	949	rubella, immunity among women of childbearing age	76
iodine fortification, prevention program	502		
		sand flies, phlebotomine, nocturnal activities	383
latent tuberculosis infection, diagnosing by the QFT-IT	82	Sanger sequencing, drug resistance mutation detection	256
<i>Legionella</i> , nosocomial septicemia	292	<i>Schistosoma japonicum</i> , infected mice, effect of praziquantel treatment	208
listeriosis, neonatal	826	schistosomiasis, diagnostic tests for surveillance	198
		school absenteeism, patterns among primary school students	143
meningitis, neonatal, trend of MDR	438	<i>Sida acuta</i> Burm. F. antibacterial activity	285
motor vehicle, characteristics of accident patients	887	smoking, cessation rates	879
mushroom poisoning, epidemiological characteristics	509	smoking, prevalence among university students	1084
<i>Mycobacterium tuberculosis</i> , typing discrimination	276	smoking status, oral health association	165
		sports and alcohol consumption, association	478
<i>Naegleria fowleri</i>	368	<i>Staphylococcus aureus</i> abscess, treatment by topical honey	835
<i>Neospora caninum</i> , infection in bovine and goats	549	<i>Staphylococcus aureus</i> , methicillin resistant, genotype and phenotypes	1060
newly diagnosed pediatric cancer, undernutrition	677	<i>Staphylococcus aureus</i> , methicillin resistant, Indonesia	1053
norovirus genogroups I and II, detection in oyster	1017		
obesity, among Malaysian adults	1091		
oral health care, elderly population	516		
oral health, Orang Asli children	894		

SUBJECT INDEX

<i>Staphylococcus aureus</i> , methicillin resistant, pediatric skin infection	88	travel health, KAP of travellers	707
<i>Staphylococcus</i> spp, characterization in meat and food	96	tuberculosis, diagnosis of latent infection	82
<i>Streptococcus pneumoniae</i> , susceptibility to fosfomycin	108	university students, sport and alcohol consumption	478
stroke patients, long-term survival	332	urinary tract infection, catheter associated	113
<i>Strongyloides stercoralis</i>	741	urinary tract infection, risk factors among children	123
tetraspanin, surface display	934	viral detection, host DNA removal procedure	617
thalassemia, ferroportin expression	846		
<i>Toxorhynchites splendens</i> , velocity and prey preference	240
