The screenshot shows the Clarivate Journal Citation Reports website. At the top, there is a navigation bar with the Clarivate logo on the left and a 'Products' menu on the right. Below this, the main header includes 'Journal Citation Reports', 'Browse journals', and 'Browse categories'. A user profile icon is visible with the email address 'pitchapa.vut@mahidol.ac.th'. The main content area has a purple background with the text 'The world's leading journals and publisher-neutral data'. A search bar is present with the placeholder text 'Type journal title, ISSN, eISSN, category, or keywords' and a magnifying glass icon. A red arrow points to the search bar, and the Thai text 'ใส่ชื่อวารสารที่ต้องการค้นหา' is overlaid on it. Below the search bar, there is a section titled 'Already have a manuscript?' with a subtext 'Find relevant, reputable journals for potential publication of your research using Manuscript matcher.' and a 'Match my manuscript' button. A help icon (a question mark in a circle) is located in the bottom right corner of the page.

Journal Impact Factor

The Journal Impact Factor (JIF) is a journal-level metric calculated from data indexed in the Web of Science Core Collection. It should be used with careful attention to the many factors that influence citation rates, such as the volume of publication and citations characteristics of the subject area and type of journal. The Journal Impact Factor can complement expert opinion and informed peer review. In the case of academic evaluation for tenure, it is inappropriate to use a journal-level metric as a proxy measure for individual researchers, institutions, or articles. [Learn more](#)
