

# THE SOUTHEAST ASIAN JOURNAL OF TROPICAL MEDICINE AND PUBLIC HEALTH

Volume 7

September 1976

Number 3

## CONTENTS

	Page
A coxsackievirus type A24 epidemic conjunctivitis in Brunei . . . . . . . . . . M.A. BAHRIN, N.D. JOSHI and M. YIN-MURPHY	355
Activities of some carbohydrate metabolising enzymes in both the yeast-like and mycelial-like forms of <i>Candida albicans</i> . . . . . . . . . . S.H. TON and M.C. KARUNAIRATNAM	359
<i>Pseudomonas putrefaciens</i> from clinical material . . . . . . . . . . M.L. THONG	363
A comparison of the efficiency of the nuclepore and millipore filtration systems for detecting microfilariae . . . . . . . . . . D.E. ABARU and D.A. DENHAM	367
A study on the microfilarial periodicity at Bireuen, the type locality of <i>Brugia malayi</i> . . . . . . . . . . M. SASA, R. SHIRASAKA, A. JOESOEFF, R. ABDULWAHAS and H. YAMAURA	370
Hydrogen sulphide production as an aid to the identification of <i>Vibrio parahaemolyticus</i> . . . . . . . . . . M. JEGATHESAN and T. PARAMASIVAM	377
Leptospirosis in Malaysia: a common cause of short-term fever . . . . . . . . . . G.W. BROWN, C.K. LEE, D.L. HUXSOLL, T.S. NG, K.J. LIM, H.S. WAN, J.D. EERAN and G. SANNASEY	380
<i>Angiostrongylus malaysiensis</i> from Tuaran, Sabah, with reference to the distribution of the parasite in Malaysia . . . . . . . . . . LIM BOO LIAT, LIM TIONG WAH, W. CHEAH and YAP LOY FONG	384
Light microscopy and scanning electron microscopy of <i>Bathmostomum sangeri</i> Cobbold, 1879, of elephants . . . . . . . . . . PRASERT SETASUBAN	390
Physiological response to parasitism I. Changes in carbohydrate reserves of the molluscan host . . . . . . . . . . L. MANOHAR and P. VENKATESWARA RAO	395
Parasitological survey in Gorontalo, North Sulawesi, Indonesia . . . . . . . . . . E.E. STAFFORD, S. MASRI and K. SORENSEN	405
Absence of plague in certain mammals from Java and Kalimantan (Borneo) . . . . . . . . . . P.F.D. VAN PEENEN, S.W. JOSEPH, D.C. CAVANAUGH, J.E. WILLIAMS, L.F. LUYSTER and J. SULIANTI SAROSO	411

	Page
<i>Periplaneta americana</i> (L.) as intermediate host of <i>Moniliformis moniliformis</i> (Bremser) in Penang, Malaysia . . . . .	415
. . . . . A. KHAIRUL ANUAR and T.P. PARAN	
Reactivation studies on organophosphate inhibited human cholinesterases by pralidoxime (P-2-AM) . . . . .	417
. . . . . A. GANENDRAN and S. BALABASKARAN	
Observations on the breeding habitats of <i>Aedes aegypti</i> (L.) in Jakarta, Indonesia . . . . .	424
. . . . . M.J. NELSON, C.P. PANT, L.S. SELF and S. USMAN	
Abnormal haemoglobins and hereditary ovalocytosis in the Ulu Jempul district of Kuala Pilah, West Malaysia . . . . .	430
. . . . . J. GANESAN, R. GEORGE and L.E. LIE-INJO	
Endemic goitre in Sarawak, Malaysia: I. Somatic growth and aetiology . . . . .	434
. . . . . G.F. MABERLY and C.J. EASTMAN	
Comparative growth of Malay, Chinese and Indian school children in Malaysia . . . . .	443
. . . . . S.T. CHEN	
A comparative study of the physical performance capacity of rural and urban Burmese women aged 19-24 years . . . . .	452
. . . . . HTAY HTAY, LILIAN PO and M. MYA-TU	
Some human "carbohydrate-rich" serum proteins in protein-energy malnutrition . . . . .	460
. . . . . F.P. SCHELP, P. MIGASENA, I. ROST-REICHERT, P. PONGPAEW and W.H.P. SCHREURS	
Trace elements in air, water and food in the Philippines . . . . .	465
. . . . . F.R. JOSE and L. RABUCO	
Official statistics and blindness in Hong Kong . . . . .	470
. . . . . T.K.W. NG	
Carcinoma of the cystic duct associated with opisthorchiasis . . . . .	482
. . . . . T. CHAINUVATI, A. PAOSAWADHI, M. SRIPRANOTH, S. MANASATITH and V. VIRANUVATTI	
Research Notes . . . . .	487
News from SEAMEO Regional Tropical Medicine and Public Health Project . . . . .	499
Editorial Notice . . . . .	505
