

THE SOUTHEAST ASIAN JOURNAL OF TROPICAL MEDICINE AND PUBLIC HEALTH

Volume 37

Supplement 2

2006

CONTENTS

	Page
Abstract	1
Introduction	2
Sibling species and genetic variation in anopheline mosquitoes	2
Role of anopheline mosquitoes as disease vectors in Thailand	4
Malaria	4
Japanese encephalitis	6
Filariasis	6
The <i>Anopheles</i> fauna of Thailand	7
Notes on habitats	8
Feeding behavior	9
Habitats of the Groups and Subgroups of <i>Anopheles</i>	9
1. <i>Anopheles</i> (<i>Anopheles</i>), <i>Anopheles</i> Series	10
1.1 Aitkenii Group	10
1.2 Culiciformis Group	10
1.3 Lindesayi Group	10
2. <i>Anopheles</i> (<i>Anopheles</i>), <i>Lophoscelomyia</i> Series	10
2.1 Asiaticus Group	10
2.2 Unassociated Species	10
3. <i>Anopheles</i> (<i>Anopheles</i>), <i>Myzorhynchus</i> Series	11
3.1 Albotaeniatus Group	11
3.2 Barbirostris Group	11
3.3 Hyrcanus Group	11
3.4 Umbrosus Group	11
4. <i>Anopheles</i> (<i>Baimaia</i>)	12
5. <i>Anopheles</i> (<i>Cellia</i>), <i>Myzomyia</i> Series	12
5.1 Jeyporiensis Complex	12
5.2 Aconitus Subgroup	12
5.3 Culicifacies Subgroup	12
5.4 Minimus Subgroup	12
6. <i>Anopheles</i> (<i>Cellia</i>), <i>Neocellia</i> Series	13

6.1 Annularis Group	13
6.2 Jamesii Group	13
6.3 Maculatus Group	13
6.4 Unassociated Species	13
7 <i>Anopheles (Cellia)</i> , <i>Neomyzomyia</i> Series	14
7.1 Kochi Group	14
7.2 Leucosphyrus Group	14
7.3 Tessellatus Group	14
8 <i>Anopheles (Cellia)</i> , <i>Pyretophorus</i> Series	15
8.1 Ludlowae Group	15
8.2 Subpictus Group	15
Acknowledgements	16
References	16
Type locality information	27
Known anopheline vectors and potential vectors in Thailand and neighboring countries	28
Checklist of the <i>Anopheles</i> of Thailand	30
Known breeding habitats of immatures of <i>Anopheles</i> in Thailand	34
Map of Thailand showing the six subregions and the 76 provinces	37
Map of Thailand showing distributions of <i>Anopheles</i> mosquitoes in Thailand	38
Morphology	
Adult females	48
Fourth-instar larvae	50
Key to the subgenera and species of adult females	52
Key to the subgenera and species of fourth-instar larvae	90
