PREFACE

This supplement issue of *The Southeast Asian Journal of Tropical Medicine and Public Health* is published on the occasion of the 72nd anniversary of the Department of Pediatrics, Faculty of Medicine Siriraj Hospital, Mahidol University. The missions of the Department are dedicated to super tertiary care service, international standard medical education, and high quality research. The faculties of the Department have been very productive in clinical and basic research relevant to child health problems in Thailand.

This supplement issue gathers the current and recent research works in the Department. There are 35 original articles, including two multicenter studies, and 3 case reports from 17 subspecialties in Pediatrics. Wide ranges of clinical and basic research studies are presented. We hope our publications will be relevant and useful, and may guide the clinical practice in child care.
